

Nexis® Data+

Experience Data Magic.

Unrivaled data.

Next-level technology.

Flexible delivery.

LexisNexis®

Nexis® Solutions

You don't just need data. You need to unlock powerful, exceptional insights across the enterprise. You need to confidently foresee risks and opportunities. You need to transform information into meaningful action and true innovation. And you need to do it efficiently, at volume.

In other words, you need a little data magic. And you need it now.

Nexis® Data+ makes this next level of data intelligence possible, allowing you to pull meaningful, actionable insights from an unrivaled collection of extensively and dynamically enriched data delivered via a next-level, flexible API platform.

A POWERFUL SOLUTION THAT MEETS YOUR NEEDS.

What makes us different?

Our market-leading combination of comprehensive curated content, deep data enrichments, proprietary linking and clustering technology— all with flexible delivery.

Our solutions will empower your team to meet your industry's greatest business challenges head-on with clarity and confidence.

WHAT DO YOU WANT TO ACCOMPLISH?

Third Party Risk Management

Integrate diverse datasets for efficient entity risk screening, due diligence, and ongoing monitoring to enhance business compliance and risk awareness.

Media Monitoring & Analysis

Power media monitoring with timely news and web media data, social commentary, and insights for proactive reputation management, market trend tracking, and strategic fine-tuning.

Regulatory Compliance

Incorporate news, adverse media, and legal sources for crisis and compliance analyses to stay alert to trigger events, safeguarding your organization's reputation and stakeholder confidence.

Market & Competitive Intelligence

Elevate market intelligence with comprehensive data, including news, company, and financial data, for improved decision-making and a stronger competitive edge.

Business Development

Navigate business development effectively by analyzing historical data to identify trigger events, ensuring data-informed and strategically sound sales, M&A, and outreach strategies.

Investment Insight

Utilize news, legal sources, company data, and ESG factors for informed financial decision-making, optimizing portfolios, and scrutinizing M&A propositions with a data-driven vantage point.

Academic & Government Research

Enhance decision intelligence and research depth by incorporating alternative data, such as news and legal sources, to develop a multi-dimensional view that strengthens decision-making, identifies opportunities, and refines analytics and models.

HOW OUR UNRIVALED DATA CAN HELP.

Whether you're driving growth, forecasting trends, or managing risk, Nexis Data+ has the data you need to meet your business challenges head-on.

Data Analysis

Utilize diverse, extensive datasets to extract valuable insights and patterns. Leverage data to deepen your understanding, identify root causes, and enhance data-driven decision-making.

Knowledge Sharing & Expertise Building

Promote a culture of continuous learning and expertise in your organization. Enable informed decisions and collaborative knowledge sharing by providing easy access to diverse topics. Integrate comprehensive data into automated newsletters, shared spaces, portals, and internal tools.

AI-Driven Event Modeling & Prediction

Power your AI-driven machine learning, pattern discovery, and predictive analytics with comprehensive data to actively anticipate future outcomes and make well-informed decisions.

Research & Development

Accelerate your research and development efforts by leveraging comprehensive data. Expedite projects, identify innovation opportunities, and stay ahead of the curve in market and product advancements.

Application & Product Development

Drive innovation in application and product development by integrating data-driven insights. Elevate functionality, enhance user experience, and create solutions that deliver value with precision.

TRANSFORMATIONAL & TRUSTWORTHY DATA.

In a world full of uncertainty, you can trust the depth, breadth, and integrity of Nexis® Data+. Nexis® Data+ offers streamlined access to an unmatched quantity and quality of timely, relevant data.

News & Web Media

Access 45+ years of global news from 38,000+ sources, spanning print, broadcast, and web platforms for near real-time and archived local, national, international, and industry news.

Company & Financial

Explore the financial intricacies of over 489 million global public and private companies with detailed profiles, executive dynamics, annual reports, SEC filings, and more.

Biographical Sources

Identify key individuals for business development and talent acquisition with detailed contact information, educational and professional milestones, and affiliations.

Compliance Data

Screen third-parties against critical datasets covering Politically Exposed Persons (PEPs), Sanctions & Watchlists to enhance risk mitigation.

ESG Ratings

Streamline ESG performance evaluations with consolidated data, facilitating seamless due diligence and reporting processes.

Legal

Access a comprehensive collection of Federal, State, and International court cases spanning 14 jurisdictions, including the United Nations International Court of Justice.

Intellectual Property

Explore expansive intellectual property (IP) data, including images, full-text documents, and enriched data, guiding innovation and competitive strategies.

Academic Journals

Access scholarly and industry journals relevant to numerous disciplines to stay current with the latest academic findings for enhanced research.

EXTENSIVE AND DYNAMIC DATA ENRICHMENTS.

It's not just the amount of data. The real value of Nexis® Data+ is in how we classify and enrich it.

Nexis® Data+ pairs dynamic smart data enrichments with proprietary linking and clustering technology. That means **more targeted data calls yielding more relevant results—and more powerful, insightful analysis.**

We do the heavy lifting for you, adding powerful metadata and enrichments, including:

TRANSFORM DATA INTO ACTION, FASTER.

By combining an unmatched collection of global data and sophisticated data enrichments with our proprietary linking and clustering technology, Nexis® Data+ empowers your team to precisely identify and categorize content, generate fewer false positives, draw correlations and build relevant connections. Has data analysis ever been easier? We don't think so.

FLEXIBLE DATA DELIVERY.

Unlock simplicity by coding against our single API and instantly tap into the extensive LexisNexis data universe. Save time on data prep, accelerate insights, and enjoy a consistently formatted experience.

Experience a fast and flexible data journey with our easy-to-integrate, next-generation API platform. It seamlessly combines advanced search precision, extensive data enrichments in a consistent JSON format, and a single point of entry to our global content. Nexis® Data+ adapts to your specific requirements, offering unparalleled flexibility. Our dedicated data support team collaborates with you to determine a custom solution that perfectly aligns with the unique needs of your business.

SEARCH

Search and retrieve the vast Nexis® Data+ universe within your own environment. Nexis® Data+ simplifies technical complexities with seamless access to relevant datasets, so you don't have to worry about the underlying infrastructure.

ARCHIVE

Supercharge your analytical and modeling capabilities with access to historical data sets. Harness the power of our extensive and enriched archive through batch deliveries, one-time data set pulls or by requesting an entire dataset.

MONITOR

Stay up to date with the latest information related to identified subjects, events, terms or persons of interest. Automate the execution of searches, streamline the process of staying informed and receive real-time updates to efficiently track the topics you care about.

FIREHOSE

Get new and updated information as it happens. Whether you need a real-time stream of all available data or specifically refined data sets in a constant feed, Nexis® Data+ provides a steady flow of enriched data, piped directly into your environment to keep models and analysis current.

SEAMLESS INTEGRATION WITH YOUR DATA PLATFORM.

Nexis® Data+ integrates easily with data platforms such as Snowflake, so you can leverage the power of LexisNexis® datasets within your preferred environment. Accessing LexisNexis data through cloud-based data platforms provides the flexibility you need to deliver powerful insights.

THE POWER OF DATA MAGIC.

We've combined our unrivaled data universe, deep data enrichments, best-in-class data science technology and a flexible API platform, to deliver a solution to help you transform data into insights, and insights into action. The result? A powerful data solution that empowers your team with the knowledge to become subject matter experts, allows you to deeply track your markets and competitors and gives you the ability to quickly identify unique insights—putting you at the forefront of innovation.

ADVANCED TOOLS & SUPPORT.

We offer dedicated, hands-on support to ensure your projects are more successful.

Nexis Data+ Provides:

- **ON-BOARDING & TRAINING:**

Our support team offers comprehensive onboarding assistance, providing step-by-step integration guidance and training. We ensure your team understands the intricacies of our data structure and schema, empowering them to quickly master search construction and hit the ground running.

- **DEDICATED SUPPORT:**

We provide ongoing technical support as your needs and projects evolve, to ensure your data solutions stay relevant for you.

- **24/7 GLOBAL SUPPORT:**

Our support team is available 24/7 to ensure your project is running smoothly. We offer global support as your needs and projects evolve—28+ countries with local and regional customer support.

- **ADVANCED TOOLS:**

We provide tools and guidance through the Nexis® Data+ Portal offering in-depth API documentation, response examples, source data insights, delivery options, schemas, sample code, and access keys for sandbox environments for seamless data exploration.

We're committed to helping you achieve your organization's goals with tailored data solutions aligned with your unique needs.

We're ready to perform some data magic for you.

Let our data team show you what's possible.
