

Get smart fast on businesses that matter to you

Experience Better Company Research, Faster with Nexis+ AI™

Nexis+ AI™ accelerates company research by combining powerful new AI technologies with the expansive LexisNexis data universe trusted by organizations worldwide for more than 50 years. Nexis+ AI empowers you and your teams to:

Extract Insight

Save time on document review by extracting insight from massive files in seconds. Simply upload a document and use the AI-powered chatbot and extractions to discover key insight.

Summarize Sources

Quickly expand your understanding of a topic, company or trend. Summarize long documents and news articles sourced from a vast library of global content.

Execute At Speed

Deeply research businesses using LexisNexis news and financial news and company data by leveraging AI tools that accelerate discovery and reporting.

Organize Research

Keep projects on track with ease. Save insights and their source metadata with a couple of clicks, before reviewing your collected research from a single hub of cloud-stored data.

Generate Reports

Never start a report from a blank page again. Generate first drafts that are easy to verify and edit, using only your curated selection of sources.
