
LexisNexis® Publisher User Group

Winter 2013 Meeting

Michael Saint-Onge
LexisNexis® Librarian Relations Group

Objectives:

To provide an overview of LexisNexis®
Publisher resources available to Editors;
To review recent enhancements;
and to provide a forum for questions or
comments.

Agenda

- Introduction and Roll Call
- LexisNexis[®] Publisher Resources
- LexisNexis[®] Publisher Enhancements
 - Web News
 - RSS Feeds
 - Cost Recovery Options
- Questions / Comments / Feedback

LexisNexis® Publisher Enhancements

LexisNexis® Publisher: Web News

- The Web News collection includes ***several thousand websites*** that were selected on the basis of editorial quality and value to our customers.
- Adding Web News means ***more results from more sources including access to key sources not licensed by*** LexisNexis.

LexisNexis® Publisher: Web News

- Users can add Web News, ***at no additional cost***, to existing or new topics simply by creating a new search and choosing Web News as the search type.
- Web News ***supports all LexisNexis® search logic*** including searches built off Index terms and all date, source and language parameters.

The Sources - Alphabetically

Obama Administration Tells Contractors Facing Sequestration to Not Warn Employees About Potential Layoffs

The Obama Administration issued a memorandum ([White House link](#)) late Friday, instructing Federal contractors that they should not provide WARN Act notice to employees facing [sequestration](#). The [WARN Act](#) is designed to protect "workers, their families, and communities by requiring most employers with 100 or more employees to provide notification 60 calendar days in advance of plant closings and mass layoffs." This White House directive

CGES: Oil field costs haven't made crude oil prices rise

Posted: Tue, 29 Jan 2013 21:57:00 GMTPosted: 2013-01-29T21:57:00Z

About one third of the worldwide supply of crude oil costs less than \$10/bbl to produce, and nearly 90% costs less than \$20/bbl, according to a study arguing that production costs don't explain recent crude-price increases.

Romania: Raffles, Zeta to study hookup of two gas finds

Posted: Tue, 29 Jan 2013 19:34:00 GMTPosted: 2013-01-29T19:34:00Z

Raffles Energy SRL and Zeta Petroleum PLC will study the feasibility of hooking up two commercial gas discovery wells this year on the 2,403 sq km Suceava concession in northern Romania.

CGES: Oil field costs haven't made crude oil prices rise

HOUSTON, Jan. 29
01/29/2013
By OJG editors

About one third of the worldwide supply of crude oil costs less than \$10/bbl to produce, and nearly 90% costs less than \$20/bbl, according to a study arguing that production costs don't explain recent crude-price increases.

In fact, concludes the Centre for Global Energy Studies, the price increase of recent years has caused, rather than been caused by, the cost hikes that have occurred.

When the price of oil was \$20-30/bbl, the CGES study points out, exploration and development progressed successfully even in the most expensive areas.

Although the rate of cost increase has exceeded inflation, the fully built-up costs of developing and producing in most regions do not exceed \$30/bbl. For the Canadian oil sands

NEW COST RECOVERY OPTION

What is a cost recovery report?:

Many professional services organizations, PR agencies, and other entities choose to recover some or all of their online research charges. LexisNexis® Publisher's cost recovery tools enable you to validate, capture, and report document usage on a per client or project basis.

Note: This feature must be enabled at an account level by a LexisNexis® representative.

.

- The cost recovery feature can be set on a per topic basis since not all topics may be covered by an organization's cost-recovery policies
- Users enter a Client ID prior to accessing documents to ensure valid details are recorded before research begins.
- Validation tools ensure that only authorized users access LexisNexis® Publisher materials – email addresses are entered and checked against a list of Subscribed Users in LexisNexis® Publisher.
- Detailed cost recovery reports – including usage by client, user, topic, and date – enable organizations to align research goals with the business objective of enhanced profitability.
