### ***Already Registered?***

If you already have a CounselLink account, you do not need to complete the registration process again. Follow your client's instructions for having your account connected to theirs or contact the [Attorney Implementation team](#) for assistance. Once your account is linked to your client's, you can skip to the **Add Timekeepers** section of this guide.

**Note:** If you have forgotten your username or password, click the applicable **Forgot Username** or **Forgot Password** link and CounselLink will email instructions to assist you.

### ***New Registration***

Register your law firm with CounselLink as requested by your client. If you need assistance with the registration process, call the Customer Support phone number that is provided at the bottom of each screen.

1. Go to [www.counselink.net](http://www.counselink.net) and click the **Sign Up** link.
2. Enter your firm's information, including the firm name, firm type, client name, firm address, phone number and payment details. Then click **Next**.
3. Type your **First Name, Last Name, Email Address, and Timekeeper Level** to create your administrator profile. With this role, you can add timekeepers, enter rates and perform other administrative tasks later.
4. Select the box to **Create Username & Password Now**. Enter your login credentials or choose to have CounselLink email you a system generated Username and a link to create a password later. Don't forget to make note of the **Secret Question** you select and the answer you enter, as this must be provided if you need to reset your password later.
5. The first time you sign into CounselLink the Terms & Conditions will display. Please review the CounselLink Privacy Policy and Terms and Conditions, then select the **I agree to the CounselLink Privacy Policy and Terms and Conditions** checkbox

# Invoice Processing

Your client uses CounselLink to receive and process all legal invoices. All invoices must be submitted through CounselLink. **Invoices received for matters that have not been assigned through CounselLink will be rejected.**

**Note:** Detailed instructions for submitting invoices, troubleshooting rejected invoices, and many other topics are available from the **Help (?)** link located in the upper right corner of every screen.

## Preferred Invoice Submission Method

To secure prompt and accurate payments to your firm, upload invoices using the structured data (LEDES) format. This is the preferred invoice submission method. CounselLink also accepts invoices submitted by mail, email, and those created directly in CounselLink.

### Upload a Structured Data (LEDES) File to CounselLink

1. Export the invoice from your time and billing software to the LEDES (ASCII) structured data format. **Examples LEDES 1998B, 1998BI, 2000 and XML 2.1**
2. From the Billing section of the CounselLink Home page, click the **+ Import Invoice** button.
3. You can upload one or more invoice files at once.
  - a. In the Invoice Files section, click the **Choose File** button to the right of the File 1 label.
  - b. Browse to locate the saved LEDES invoice file and select it.
  - c. Click **Open**.
  - d. Repeat the file selection process for each additional invoice. If you need to attach more than 5 files, click the **Add Another File** button.
  - e. Complete any other necessary information on the Import Invoice page.
  - f. Once you have specified all your invoices, click **Next**.

4. If data errors are found, the Import Invoice Status screen appears.
  - a. To see all errors, click **View Status Report**. Read the error messages. For more information, click the message number link. Click **Close** to return.
  - b. To remove an invoice from the upload process due to errors, click the check box near the invoice number and click **Delete**.
  - c. To continue with the upload process, click **Continue**.

5. Confirm or change the **Invoice Currency**. CounselLink will provide the Exchange Rate.
6. Confirm or change the **Fee Tax** and **Expense Tax**.
7. Click **Continue** when all data appears correct.
8. If your client requires additional information on invoices, click the check box near the invoice number, and then click **Add Additional Information**. Fill out the fields on the page. For questions on this data, please contact the client.
9. To provide a document with the invoices such as a receipt, click the check box near the invoice number, and click **Document Attach**.
  - a. Click **Browse** to locate your document.
  - b. Type a **Document Name**.
  - c. If you need to attach more documents, click the **Attach Another Document** button.
  - d. Click **Submit**.
10. At the Final Review page, click **Send** to make the invoice available to the client. The Import Invoice – Confirmation information displays. Review the confirmation page.
11. Click **Done** to finish the invoice upload process.

**Note:** After upload, CounselLink checks the invoice against the client's billing guidelines. The individual who uploads the invoice will receive a status email regarding the guideline review. This email indicates the number of invoices sent to the client or held. It will also indicate if any billing guideline errors were found or if the client requires additional information. If guideline errors were identified, your invoice will be rejected. You can access the invoice from the **Rejected by Billing Guidelines Review** link on the Home page. Fix the errors and submit the invoice again.

## Alternate Invoice Submission Methods

---

If you are not able to upload a structured data (LEDES) file, use one of these alternate methods to submit your invoices to CounselLink.

### **Email Invoice**

Create invoices in any of the following formats: .pdf, .doc, .txt, and .xls. Invoices must include the following information:

- Service provider name and address
- Client Name
- Corporate Customer Matter ID and Title
- Invoice date
- Unique invoice number
- Text in English
- Fee, disbursement, and invoice total amounts
- Tax and discount amounts separate from fee and disbursement totals, if applicable
- Currency type
- A date for each fee or expense charge
- A complete charge description
- For hourly billing:
  - Use tenth of an hour time increment (e.g., .10, .20, .30, etc.)
  - Include timekeeper IDs and timekeeper rates or cost associated with each charge.
  - Timekeeper summary listing the names, timekeeper IDs, hourly rates and total hours billed by each timekeeper.

Email the invoices to CounselLink for processing. Invoices should be sent as an attachment (6 MB maximum file size) to [counsellinkinvoices@lexisnexis.com](mailto:counsellinkinvoices@lexisnexis.com).

Multiple invoices may be attached to one email but include **only one invoice per file attachment**. Please include any backup documentation (e.g., receipts) at the end of the invoice file and not as a separate file attachment. Do not send balance statements or any other non-invoice documents. Do not send blurry or out-of-focus invoices.

Once the invoice is received, a verification email will be sent out that includes a confirmation number for each invoice attachment. This confirmation number should be retained for tracking purposes.

**Note:** Invoices that do not meet minimum Counsellink requirements will be rejected and returned to your law firm. An email message is sent to the person who submitted the invoice email as well as individuals in the Accounts Receivable role at the law firm office. The message will contain the reason for the rejection and the actions needed to correct the problems. After fixing the issues, submit the corrected invoice.

### Mail Paper Invoice

You can mail an original copy of an invoice on white paper to Counsellink. A separate invoice must be submitted for each matter. Mailed invoices must contain all the same matter, invoice, and charge level data listed in the Email Invoice section above.

Mail the paper invoices to:

**Client Name** c/o LexisNexis Counsellink Invoices  
1801 Varsity Drive

## Stages of Invoice Review

Counsellink uses a combination of automated reviews and client reviews to identify and flag issues on invoices.

- Validation Review** – All submitted invoices are immediately checked for math and date format errors. If any are detected, error messages display. Resolve the math or date errors and submit the invoice again.
- Billing Guideline Review** – Charge lines are compared to your client’s billing rules. Any violations are noted and either a flag or an adjustment is applied to the charge. Review your client’s billing guidelines to prevent flags and adjustments on future invoices.
- Client Review** - The client reviews all the charge lines, including adjustments and flags added during the Billing Guideline review, and makes charge-level and invoice-level decisions. Once complete, the invoice is approved or rejected by the client. If approved, invoice payments are made.

**Note:** Some clients allow law firms to review and appeal adjustments on invoices. Other clients reject invoices with charge errors and require submission of a new, corrected invoice. Review your client’s policies to resolve rejected invoices appropriately.

## Invoice Statuses

The Billing panel of the Home page shows the number of invoices in the following statuses:

- Action Required for Collaborative Review** - Invoices that were adjusted by the client while using the collaborative review feature. Action is required by the law firm before these invoices can be finalized.

- **Inactive / Incomplete** - Invoices that have been started by the law firm, but have not been sent to the client.
- **On Hold** - Invoices ready to be sent to client, but the invoice cannot be sent because of a pending matter status. Resolve the matter status issue, then submit the invoice.
- **Scheduled** - Some clients require that invoices be sent only during certain time periods. Invoices created prior to a pre-set billing day will be held in this status.
- **Rejected by Billing Guidelines Review** - Invoices sent to the clients and automatically rejected by the corporate client's billing guidelines. Review the billing guidelines before submitting another invoice.
- **Rejected by Client** - Invoices rejected by the client after passing the billing guidelines review. View the invoice or charge-level notes to determine why the invoice was rejected.
- **Adjusted and Approved by Client** - Invoices approved by the client within the last sixty (60) days after adjustments were made. Review the invoice for details about adjustments made.
