GETTING STARTED WITH CONTEXT

Sign in to the Lexis Advance® service at lexisadvance.com and select Context from the product switcher. Trouble signing in? Try the Forget your ID or password? link or call Customer Support at 800-543-6862.

A **Product switcher:** Navigate to other LexisNexis® products through the product switcher.

B **Product name:** Identify the current product you are working within.

C **Search:** Enter the name of an expert, an area of expertise, judge or court to run a search across millions of case law documents. Apply a pre-search filter for experts, judges or courts if you would like to narrow search results to a given entity.
Context Judge Analytics help you craft better briefs by giving you access to the language that is likely to resonate with your judge—language your judge uses regularly in granting or denying motions like the one you're developing right now. Gain insights into other judges and cases your judge cites most often and finds most persuasive.

**Overview**

An Overview appears by default when a particular judge is selected from the search results showing a snapshot of the judge's experience and activity over time.

- **A** View high-level information about the judge, including Education, Experience as an Attorney prior to taking the bench and Judicial Experience.
- **B** Quickly view the judge's Opinions by Areas of Law and Opinions Per Year to understand the judge's background and experience in similar cases.
- **C** Link to this page to share this profile or revisit it at a later time.
- **D** Create a full or custom report to export and share judge analytics with colleagues.
Motion Language

A Interactive motion outcomes chart: Examine a judge's rulings on a specific motion type and view an associated case list for that motion type. Motion outcomes are based on opinions written by trial and court judges at both the federal and state level. Context does not currently detect appellate reversals of trial court motion decisions.

B Analyzing the opinions written by a judge, Context identifies the occurrence of up to 100 motion types and analyzes the outcome of the motion (Granted, Partial or Denied ruling).

C View all cases where the judge ruled on a specific motion type and see the exact language used in the judge's decision alongside the motion outcome for that case.
Citation Patterns

Citation Patterns give you the advantage of knowing the language, cases and judges that are most persuasive to your judge.

**A** Frequently Cited Opinions and Judges: View an interactive graphical display of the opinions and judges your judge cites most often.

**B** The right-hand display presents the most common language—exact sentences and phrases—from the opinion or judge selected, so you can easily copy and paste text into your motion or brief.
Without having to run additional searches, all available documents pertaining to your judge from across the Lexis Advance service are compiled automatically for you under the Documents tab. Advanced technology recognizes and tags each judge, yielding more precise results than a name search.

Filters on the left-hand side of the screen work similarly to Lexis Advance and allow you to narrow the results list.
