Chisum on Patents

Donald S. Chisum

The most cited treatise in patent law today—cited in over 950 decisions by U.S. federal courts, including the Court of Appeals for the Federal Circuit and the U.S. Supreme Court—*Chisum on Patents* is recognized as the leading authority on U.S. patent law. Updated five times per year—more frequently than any other analytic work on patent law—*Chisum on Patents* ensures that you are kept current on the law as it evolves.

Donald Chisum is renowned for explaining in detail, the chronological evolution of a legal area—including its current status in the patent world and possible future direction(s).

Coverage includes:

- Analysis of the substantive law of patents in the U.S.—patentability, validity, infringement, application procedure and perfecting rights to an invention
- Examination of all significant precedents, case law, statutes and international treaties
- Full discussion of claim interpretation and application
- The text of patent statutes, PTO rules, CAFC rules, legislative history, table of cases, bibliography and index
- Abstracts of all published decisions of the Court of Appeals for the Federal Circuit arranged by topic and date, since 1982

USPTO Patent Appeals & Interferences Filings

USPTO Patent Appeals & Interferences Filings contains documents related to two types of United States Patent and Trademark Office (USPTO) administrative proceedings since 2006: 1) appeals of adverse patent examiner decisions; and 2) disputes arising when multiple patent applications are filed for the same invention. Sample filings include appeal briefs and reply briefs processed by the Board of Patent Appeals and Interferences (BPAI) or, under its new name, the Patent Trial and Appeal Board (PTAB).
