Browse Mealey’s titles (continued)

You’ll see a list of Mealey’s publications. Find a title that interests you, and click the pull-down menu to choose Get documents, Add source as a search filter or Create a publication alert.

Get documents

Click Get documents to get all articles in this publication; then, use the filters under Narrow By to find exactly what you need:

- Jurisdiction
- Subject
- Timeline
- Practice Areas & Topics
- Attorney
- Law Firm
- Keyword
- Most Cited
- Judge

Using the Sort by pull-down menu on the right, you can also choose to view documents in the order you need—by title, jurisdiction or date.
Add source as a search filter

Choosing this option sets the publication that you found as a filter for your search. You can do this before or after you've entered your search terms.

Once you add a source as a search filter, you will see a brief message at the top of your screen indicating the publication/source has been added as a filter.

Subsequent searches will only be within that added source.

Create a publication alert

To be proactively notified when a current Mealey's title has been updated, choose Create a publication alert from the pull-down menu; then, choose the options that best suit you, including the duration, delivery type, format and frequency. You can also access your alerts in the Alerts pod on the Lexis Advance home page.
Search relevant Mealey’s titles

You can easily search any or all Mealey’s titles for information on a specific topic. From the Lexis Advance home page, enter your search terms in the Red Search Box, click the Filter pull-down menu and select Category > Legal News. Another option is to enter a Mealey’s publication name in the search box (being sure to include the apostrophe in the spelling), then narrow by source.

Filter results

Once you’ve run your search, you can work with and filter results just as you would after any Lexis Advance search. For example, click Source (see left) and narrow to one or more Legal News sources (Mealey’s titles outlined here). To select more than one, click Select multiple.
Save a publication as a favorite search filter

It’s easy to designate a specific Mealey’s publication as a favorite search filter—singly or in combination—by clicking the star below the publication source filter(s).
Save work in an online folder

You can also save your work with Mealey’s titles in a folder to organize it for future reference. Just click the Add to pull-down menu, select a folder, save the document(s) or results list(s) and add notes to preface the document, if desired.
