- Agency comment deadlines

## Benefits Overview

- Reliable and relevant information
- Analysis by regulatory experts
- Streamlined reporting with one-click access to full detail
- Exclusive data collection sources
- Comprehensive and timely reporting

## Reliability & Usability

- Powered by the advanced State Net database
- Redundant infrastructure and data sources
- Rigorous quality control

## Government Affairs Challenge:

Tracking regulatory activity from a variety of state registers and agency websites is cumbersome, time-consuming and unreliable.

## State Net<sup>®</sup> Solution:

The State Net regulatory reporting service gives you one-click access to proposed and adopted regulations from all 50 states and Washington, D.C. Whether you monitor regulations for compliance or seek to influence the regulatory process, our reporting team will deliver regulatory resources that are timely, reliable and relevant.

## Service Overview

### Receive alerts when activity that matches your issue profile happens

- Multiple identification methods ensure precision reporting
- Reports are sent to your inbox or PDA and are available online

### Review and select to monitor specific regulatory proposals

- Access summaries written by State Net analysts
- Click to full text of each regulation
- Reference official state sources
- Mark regulations you wish to monitor
- Store organization-specific notes, search keys, attachments and commentaries related to each proposal in your secure Private Tracking File

### Take Action with Additional Regulatory Resources

- Hearing notification is provided so you can participate in the rulemaking process
- Comment deadlines are displayed for proposed rules so you can submit testimony
- Agency contacts are provided so you can email or call the appropriate person with additional questions
