CONNECTING THE DOTS BETWEEN BILLIONS OF PUBLIC RECORDS

 VAST DATA RESOURCES We maintain over two petabytes of content from billions of public and proprietary records. Our licensed copy offers greater reliability over sources that scrape content from the open web.	+	 BIG DATA TECHNOLOGY We created our own proprietary supercomputing platform, HPCC Systems®, enabling us to process at very high speeds.	+	 LINKING & ANALYTICS LexID®, the linking ingredient inside our solutions, uses unique algorithms to find links and patterns that would not otherwise be obvious in disparate data.
