The first place to turn to reinforce your hard-won experience with hard data.

Critical strategic decisions occur throughout the life of your case. Whether you’re determining initial case value or want to sharpen your strategy, LexisNexis® Verdict & Settlement Analyzer is the first place to turn for powerful insights that deliver better litigation outcomes.

Using data-driven analyses pulled from the industry’s largest collection of verdicts and settlements, LexisNexis Verdict & Settlement Analyzer quickly puts the range of possible outcomes into perspective with easy-to-interpret charts and dynamic graphics.* In addition, you can select filters and variables that will reveal important trends and help you find the information most relevant to your case with greater speed.

With the advanced analytical technology and hard-to-find content of LexisNexis Verdict & Settlement Analyzer, you have the power to minimize risks and maximize opportunities for your firm. You can be confident you’re delivering the best client service possible while keeping costs low and efficiency high.

*Information available as of January 2015.
Leading analytics are delivered in user-friendly graphs and charts.
The charts and graphs of LexisNexis Verdict & Settlement Analyzer provide a range of variables for you to consider, including looking at cases by year, resolution and average, and/or median awards. You can change variables as needed and graphics will be automatically redrawn to reveal new trends. Click on a section to drill down to cases most relevant to you or simply hover to see more details.

Need a PDF report for presentations?
Compiling results into a single, professional report to share with peers, partners and clients is easy. Just click the Save icon on your results screen. Then view the PDF of your results charts—complete with a cover page summary of your search.

Simple search form—and no source selection.
Tap into the entire collection of LexisNexis verdict and settlement data—over 1.1 million records—each time you search. Don’t worry about selecting the right sources; the tool allows you to harness insights from similar cases and jurisdictions from a single, aggregated source.

Navigate to vital cases quickly.
Advanced analytics make it easy to work with your data the way you want. Begin with convenient pre-search filters, or start broadly and then apply various filters to zero in on the most relevant results. Either method helps you focus on what’s important without sacrificing thoroughness from the start.
**View and sort the specifics of your case.**

Ready to move beyond the charts into the details? The cite list shows you specific verdict and settlement data at a glance, from the outcome to the award amount, jurisdiction and year, allowing you to glean crucial insights before you even open a report.

You can sort the cite list to see cases listed from newest to oldest, and from the highest awards to the lowest, so you can be sure that you're always finding the information most relevant to your case strategy.

**Meeting today's unprecedented challenges.**

You face unprecedented challenges to deliver top-notch results under time and budget constraints. The analytical technology and content of LexisNexis Verdict & Settlement Analyzer, combined with the research power of Lexis Advance, helps you act with efficiency and achieve the legal advantage you need.
