LexisNexis®

The industry's first and only case law language analytics solution

Case-making language analytics that take you from file to trial

Context on the Lexis® service deploys advanced machine learning and natural language processing across tens of millions of case law documents to deliver vital litigation insights you can't get anywhere else.

SPEAK YOUR JUDGE'S LANGUAGE

Make your most persuasive argument by using the language your judge wants to hear. With **Context Judge Analytics** you can:

- **Know the specific language and cases your judge relies on** to craft your most compelling argument

- **Forecast how likely you are to prevail** by knowing the grant and denial rates in 100 motion types for your judge

- **Have confidence in your arguments** knowing the fellow judges your judge cites most often

FIND THE RIGHT COURT TO MAKE YOUR CASE

Arguing your case in the right court can ensure the best outcome for your client. Only **Context Court Analytics** bring to light the language a specific court cites most often, enabling you to:
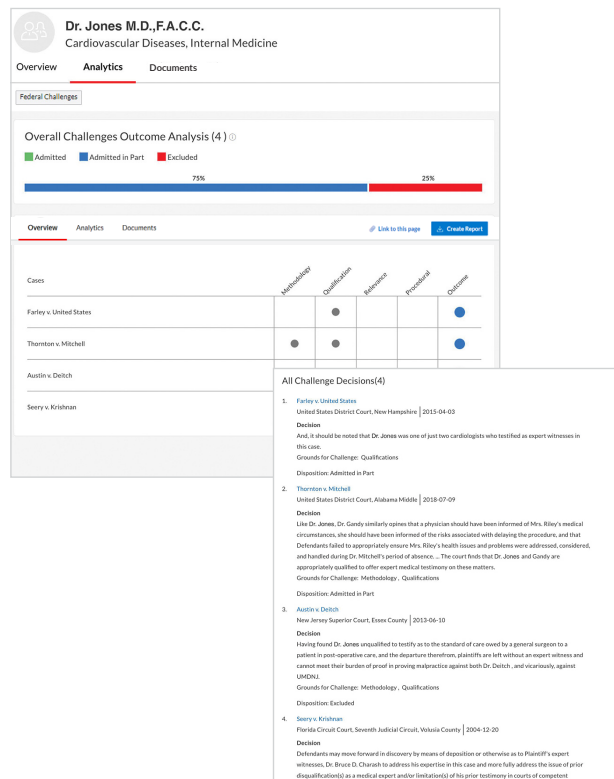

- **Find a court with precedent that's most favorable to your view**—use that intel to craft your most compelling argument and avoid arguments your court disfavors

- **See how many cases like yours have been tried in a specific court**—review how the court ruled on those cases and why

- **Determine whether a change of venue is in order**—defense attorneys can use the same deep court analytics to file for a change in venue, and even identify compelling language to support the motion

KNOW AN EXPERT'S STRENGTHS AND WEAKNESSES

Persuade your judge to admit your expert's testimony or impeach your opposition's expert. **Context Expert Witness Analytics** let you quickly create "scorecards" to assess potential experts' credentials and track records at a granular level so you can:
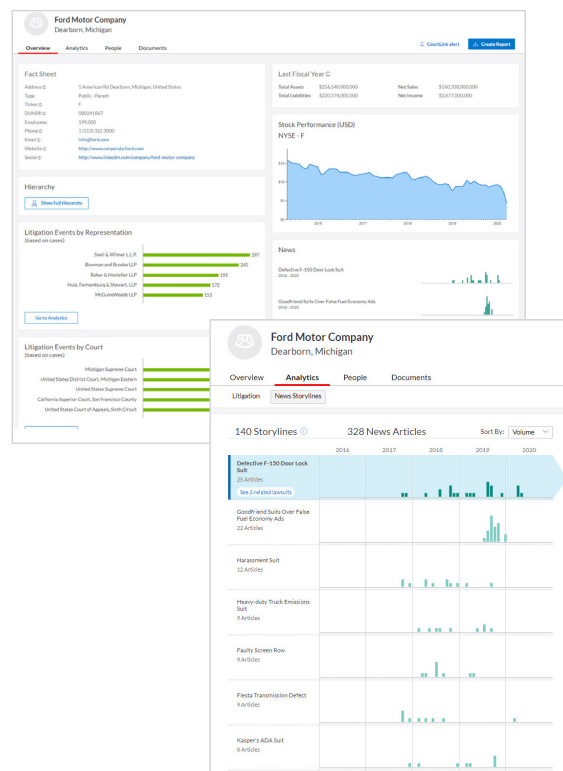

- **Pinpoint why your judge admitted or excluded** an expert's testimony, and how often, in one easy-to-read chart

- **Link to the judge's specific reasoning**, in the precise language your judge used to weigh the Daubert challenge

- **Know the specific language and cases you need** to use to help persuade your judge to admit your expert's testimony or impeach your opposition's expert

UNCOVER A COMPANY'S OPPORTUNITIES AND RISKS

Understanding and anticipating your clients' needs require you to see the full picture. Only **Context Company Analytics** bring together litigation, financial and news information so you can:

- **Provide timely and informed counsel**—demonstrate your expertise and competitive advantage with a clear understanding of the current landscape your clients are facing

- **Gain valuable competitive intelligence**—know the company you're litigating against including the motions they might file, who might represent them and what a reasonable settlement may be

- **Identify growth opportunities**—assess and monitor companies you may want to do business with or with whom you're considering a merger or acquisition
