

# Context Judge Analytics

## Know the language. Write a persuasive motion.

What if you could get inside the mind of your judge and know how and why they ruled on a case the way they did? Using advanced technology, **Context Judge Analytics** deploy language analytics across tens of millions of Lexis® case law documents to examine judge opinions and motions, allowing you to view the specific logic behind a judge's decision to grant or deny more than 100 motion types. Build arguments using language that has been proven to resonate with your judge.

The screenshot displays the Context Judge Analytics interface. On the left, a search bar asks "What would you like to search for?" with a dropdown menu for "Court" showing a list of California courts, including the United States District Court, California Northern. On the right, a detailed view for the "United States District Court, California Northern" is shown. This view includes a navigation bar with "Overview", "Analytics", and "Documents". The "Overview" section contains "Court Information" (Jurisdiction: General Jurisdiction, Type: Federal, Website: http://www.cand.uscourts.gov, Locations: Oakland and San Jose Divisions) and "Opinions by Areas of Law" (Civil Procedure: 38428, Criminal Law & Procedure: 22396, Civil Rights Law: 22442, Constitutional Law: 22096, Evidence: 22297). Below this is an "Active Judges" table and a line graph for "Opinions Per Year" (2000-2015).

Name	Year Appointed
Kandis A. Westmore Oakland Division, Ronald V. Dellums Federal Building San Francisco Division	2015
Sallie Kim San Francisco Division	2011
Jacqueline Scott Corley San Francisco Division, Phillip Burton Federal Building & U.S. Courthouse	2011
Edward J. Davila San Jose Division, Robert F. Peckham Federal Building	2011
Vince Chhabria San Francisco Division, Phillip Burton Federal Building & U.S. Courthouse	2014

## START YOUR JUDGE RESEARCH

Begin with a simple judge search. Type in the name of the judge, and the Context search word wheel will display all judges along with the court in which they preside.

## FIND AND USE THE WORDS A JUDGE WANTS TO HEAR

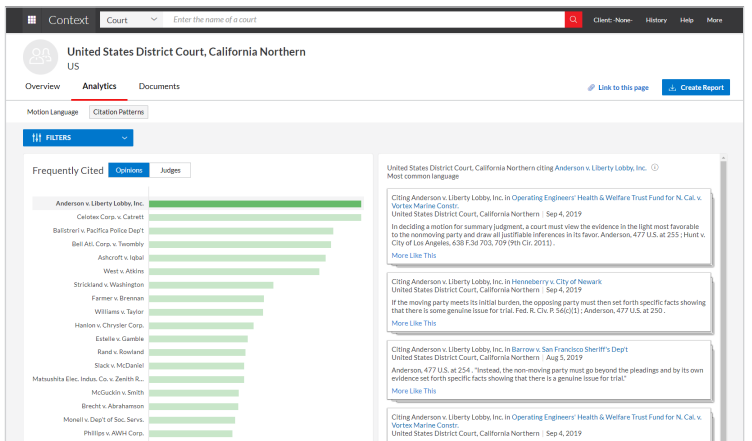

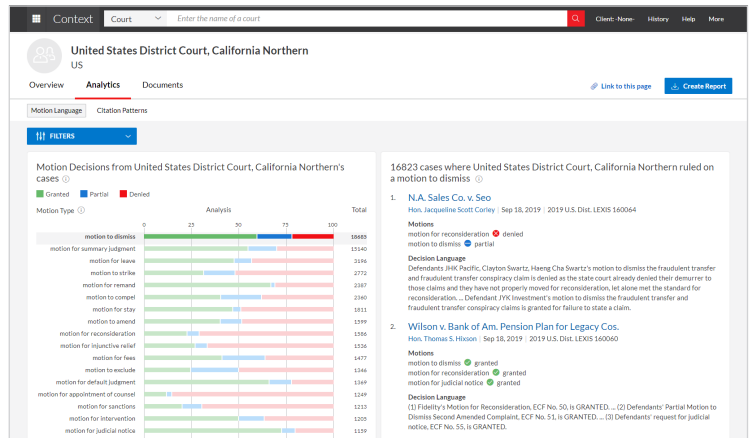

Select a judge to get a full picture of their experience, including an analytical deep dive into their motion outcomes and citation patterns, so you can pinpoint the language, precedents and even other judges a judge finds most compelling.

## CRAFT YOUR MOST PERSUASIVE ARGUMENT

Words matter. Your litigation is riding on the arguments you make in your brief or present in court. Now, with Context Judge Analytics, you can uncover critical litigation intelligence to build better briefs and oral arguments using the specific language that has been proven to persuade your judge.

Discover:

- Arguments your judge used in granting or denying **100 different motion types**, so you'll have confidence in your arguments, whether they are written or delivered in court
- How likely you are to prevail** with reports on the grant and denial rates for your judge on the same 100 motion types in one easy-to-read graph
- Fellow jurists your judge cites most often**, to help you feel confident that your judge is comfortable with the theories you espouse
- Opinions most cited by your judge**—including his own—so you know you're on more solid ground in making your case
- Deep background—no searching needed** with all available Lexis documents from your subscription about the judge compiled under the Documents tab -Think of how many searches you won't have to enter
