## Jumpstart legal drafting with Lexis+ AI

Put the power of AI to work on your first draft, freeing your precious time so you can focus on matters that demand your legal expertise. Welcome to a breakthrough era of legal document creation as you harness the cutting-edge capabilities of Lexis+ AI to draft with efficiency and precision.

### Client Emails or Letters

Prompt Lexis+ AI to compose tailored client correspondence and it will return a draft that includes case-specific information, updates on the client matter and detailed next-step recommendations. You can also ask Lexis+ AI to shorten or simply the text and adjust the tone to make the draft more or less aggressive.

This innovative tool kickstarts the drafting process, using your client's specific circumstances and relevant legal principles as a foundation.

### Clauses

Leverage Lexis+ AI to get a head start on drafting clauses for contracts within practice areas including M&A, commercial transactions, labor and employment or finance. Lexis+ AI will generate precise and legally compliant clauses swiftly, ensuring both accuracy and adherence to legal standards in your documents.

### Legal Memos or Arguments

Draft a well-structure memo in seconds – not minutes. Prompt Lexis+ AI with a fact pattern or context-driven legal issue and watch as it assembles key arguments, legal principles, and recommendations derived from binding and persuasive precedent. The draft even conforms to standard formatting conventions, simplifying the design process so you can focus on substance.
