

# Invoice and PowerInvoice

*for Customers Using the Lexis.com and Lexis® Advance Bundled Offering*

## Sample Invoice

To support our customers using the lexis.com and Lexis® Advance bundled offering, all use activity will appear on the same lexis.com invoice. Lexis® Advance use will appear under the lexis.com billgroups, so there is no need for additional billgroups. All use from both platforms will roll up to the lexis.com subscription agreement. Below is a sample invoice screenshot which has been developed for illustration purposes only.

All Transactional Use charges will flow directly into the transactional use section and will be co-mingled with lexis.com transactional charge. The customer is able to itemize this in their PowerInvoice view.

There will be no reference to Lexis® Advance on the **CURRENT PERIOD CHARGES, CREDITS AND TAX** page of the invoice. All references to Lexis® Advance will be in the PowerInvoice detail reports, both on the billing data and the invoice data side.

## PowerInvoice with Lexis® Advance highlighted

There are no changes to PowerInvoice for customers using lexis.com and Lexis® Advance. Lexis® Advance document access charges will be clearly labeled and will be categorized by content type into the appropriate service group (i.e., Lexis Legal Services, Law Reviews, Matthew Bender, etc.) Any PowerInvoice "Reallocations" set to these Services will automatically apply to both Lexis® Advance and lexis.com usage. Users creating "Custom" reports will have the option to apply rates to lexis.com activities, Lexis® Advance activities, or both. Below is a sample screenshot of PowerInvoice which has been developed for illustration purposes only.
