LexisNexis® State Net®  
advancing what's possible

# Anticipate, recognize and prepare for legislative & regulatory impacts

A new bill or regulation could pose enormous risk to your clients or organization. Even a seemingly minor amendment can have a lasting impact. What if you could identify and track those potential threats and gain the insight to create a strategy to protect your clients' interests?

## Your Clients Depend on You

LexisNexis® State Net® provides the resources and tools you need to monitor and manage pending legislative and regulatory activity to help you confidently assess the impact to your organization, influence proposed matters, prepare for upcoming changes and deliver meaningful information to stakeholders. For over 40 years, State Net® has delivered high-integrity data and customizable, results-oriented reporting to help law firms, legal professionals and government affairs and compliance professionals find, decipher and manage critical legislative and regulatory activities. It's their trusted legislative and regulatory information management solution.

You need to focus on legal analysis for your clients. See firsthand why you can depend on the State Net service for your legislative and regulatory information management solution.

### ACCESS POWERFUL TOOLS AND RESOURCES

No more time wasted sifting through irrelevant and unfocused data.

- Our proprietary search tools and hands-on client support help you efficiently isolate bills and regulations that are relevant to your clients.
- Save more time with **Issue Screening** by letting us retrieve and review key initiatives so you can focus on what to do with the information we report to you.

### KEEP YOUR CLIENTS INFORMED

You need timely updates and a quick understanding of the impact of new measures so you can advise your clients properly or influence legislative and regulatory activity on your clients' behalf.

- Be one of the first to alert your clients about risks or potential upsidest emanating from legislative action, and be confident that the information you are reporting is reliable.
- **State Net® Code Links** give you perspective on the big picture by referring you to the specific relevant code section impacted by a new law or regulation, as well as the actual language used, to help you better counsel your clients.
- **Legislative and Regulatory Alerts** let you know when new activities occur on the bills or issues you are tracking.

### MANAGE AND SHARE INTELLIGENCE

Spend less time manually creating reports by using our tools to create them, based on your preferences, and share them across the firm or with clients.

- Customizable and flexible reporting tools give you the ability to add legal commentary, notes and documents to your reports, and brand the reports with your law firm's logo.
- **Private Tracking Files** feature allows your firm to manage and prioritize intelligence in a centralized repository for different clients.
- Categorize and segment tracked bills and regulations with custom tags to match your workflow.
- Safely store team notes and attach relevant documents to measures you are tracking for your clients on the State Net service.

These are just a few examples of the data, tools and features your colleagues rely on to not only protect their current clients, but also to **drive new business opportunities and attract new clients**. After all, with State Net on your side, you can offer prospective clients the government affairs and compliance guidance they are looking for.
